

# YEB-MOBIL

Deutsch

## ACHTUNG!

**251.878 Entwerfen Lehmobil:**  
**Entwurf einer mobilen Lehmabauwerkstatt**  
**YEB-Mobil von Raphael Jung und Annalena Kindt**  
**E251 Institut für Kunstgeschichte, Bauforschung und**  
**Denkmalpflege; Prof. Andrea Rieger-Jandl**

Das Netzwerk Lehm sowie der Verein der Young Earth Builders setzen sich für eine Entwicklung des kreislauffähigen Baustoffs Lehm in Richtung Massenbaustoff ein. Workshops und Hands-On-Erfahrungen helfen, um das Wissen über die Qualitäten des Baustoffs zu verbreiten. Die Vision einer mobilen Werkstatt - das „Lehmobil“ entsteht. Dieses enthält die wichtigsten Geräte, Werkzeuge und Materialien, um den Lehm testen, mischen, formen, damit gestalten und sich kreativ ausleben zu können.

## WARNING!

**251.878 Design Lehmobil:**  
**Design of a mobile clay building workshop**  
**YEB-Mobile by Raphael Jung and Annalena Kindt**  
**E251 Institute for Art History, Building Research and Mo-**  
**nument Conservation; Prof. Andrea Rieger-Jandl**

The Netzwerk Lehm and the Young Earth Builders association are committed to the development of clay as a recyclable building material for mass production. Workshops and hands-on experiences help to spread knowledge about the qualities of the building material. The vision of a mobile workshop - the „Lehmobil“ - is born. It contains the most important equipment, tools and materials for testing, mixing, moulding, designing and being creative with clay.

## ATTENTION!

**251.878 Concevoir Lehmobil:**  
**Conception d'un atelier mobile de construction en argile**  
**YEB-Mobil de Raphael Jung et Annalena Kindt**  
**E251 Institut d'histoire de l'art, de recherche en cons-**  
**truction et de conservation du patrimoine ; Prof. Andrea**  
**Rieger-Jandl**

Le Netzwerk Lehm ainsi que l'association des Young Earth Builders s'engagent en faveur d'un développement du matériau de construction circulaire qu'est l'argile en direction d'un matériau de construction de masse. Des ateliers et des expériences „hands-on“ aident à diffuser les connaissances sur les qualités de ce matériau de construction. La vision d'un atelier mobile - le „Lehmobil“ - voit le jour. Celui-ci contient les principaux appareils, outils et matériaux permettant de tester l'argile, de la mélanger, de la façonner, de l'utiliser pour créer et d'exprimer sa créativité.

## WAARSCHUWING!

**251.878 Ontwerp Lehmobil:**  
**Ontwerp van een mobiele kleiwerkplaats**  
**YEB-Mobiel door Raphael Jung en Annalena Kindt**  
**E251 Instituut voor kunstgeschiedenis, bouwonderzoek**  
**en monumentenzorg; Prof. Andrea Rieger-Jandl**

Het Netzwerk Lehm en de vereniging Young Earth Builders zetten zich in voor de ontwikkeling van klei als recyclebaar bouwma-  
teriaal voor massaproductie. Workshops en praktijkervaringen helpen bij het verspreiden van kennis over de kwaliteiten van het bouw materiaal. De visie van een mobiele werkplaats - de „Lehmobil“ - is geboren. Deze bevat de belangrijkste apparatuur, gereedschappen en materialen voor het testen, mengen, boetsen, ontwerpen en creatief zijn met klei.

## ¡ADVERTENCIA!

**251.878 Diseño Lehmobil:**  
**Diseño de un taller móvil de construcción con arcilla**  
**YEB-Móvil de Raphael Jung y Annalena Kindt**  
**E251 Instituto de Historia del Arte, Investigación de la**  
**Construcción y Conservación de Monumentos; Prof. And-**  
**rea Rieger-Jandl**

La Netzwerk Lehm y la asociación Young Earth Builders están com-  
prometidas con el desarrollo de la arcilla como material de cons-  
trucción reciclable para la producción en masa. Los talleres y las  
experiencias prácticas ayudan a difundir los conocimientos sobre  
las cualidades de este material de construcción. Nace la idea de  
un taller móvil, el „Lehmobil“. Contiene los equipos, herramientas y  
materiales más importantes para probar, mezclar, moldear, diseñar  
y ser creativo con la arcilla.

## AVVERTENZA!

**251.878 Design Lehmobil:**  
**Progettazione di un laboratorio mobile di costruzione in**  
**argilla**  
**YEB-Mobile di Raphael Jung e Annalena Kindt**  
**E251 Istituto per la storia dell'arte, la ricerca edilizia e la**  
**conservazione dei monumenti; Prof. Andrea Rieger-Jandl**

Il Netzwerk Lehm e l'associazione Young Earth Builders sono  
impegnati nello sviluppo dell'argilla come materiale da costruzione  
riciclabile per la produzione di massa. Workshop ed esperienze  
pratiche aiutano a diffondere la conoscenza delle qualità del ma-  
teriale da costruzione. Nasce la visione di un laboratorio mobile,  
il „Lehmobil“. Questo contiene le attrezzature, gli strumenti e i ma-  
teriali più importanti per testare, mescolare, modellare, progettare  
ed essere creativi con l'argilla.

## VARNING!

**251.878 Design Lehmobil:**  
**Design av en mobil verkstad för lerbygge**  
**YEB-Mobile av Raphael Jung och Annalena Kindt**  
**E251 Institutet för konsthistoria, byggnadsforskning och**  
**monumentvård; Prof. Andrea Rieger-Jandl**

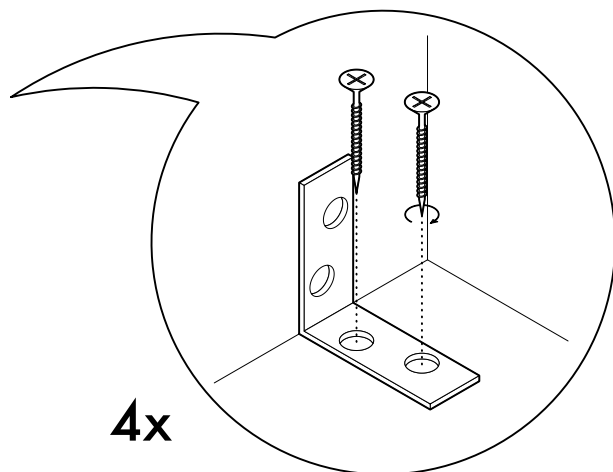

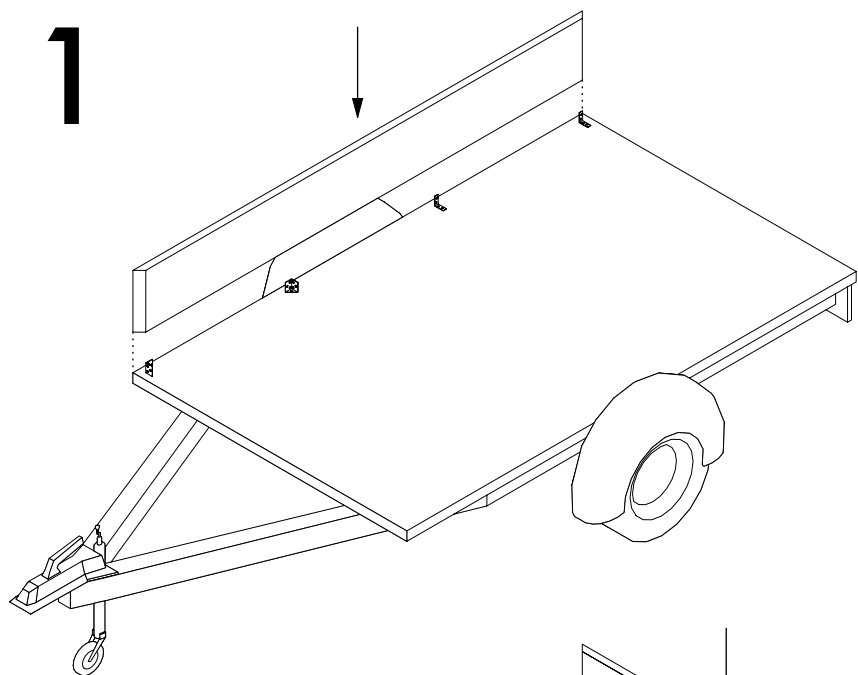

Netzwerk Lehm och Young Earth Builders är engagerade i ut-  
vecklingen av lera som ett återvinningsbart byggmaterial för  
massproduktion. Workshops och praktiska erfarenheter hjälper till  
att sprida kunskap om byggmaterialens kvaliteter. Visionen om en  
mobil verkstad - „Lehmobil“ - föds. Den innehåller den viktigaste  
utrustningen, verktygen och materialen för att testa, blanda, forma,  
designa och vara kreativ med lera.
